DANGING DECK

IN THE WORLD OF FINANCE

C. D.

Steels, Union Pacific, and Reading Favorite Issues.

BUYING BY GATES BROKERS

General Public Still Unresponsive to Present Favorable Developments. Profit-Taking a Feature.

NEW YORK, July 25.—The opening in Reading and Steel stocks on the stock market today was % higher. There was a gain of ½ in Northern Pacific. The rest of the list varied narrowly averaging probably ¼ higher. Baltimore and N. Ohio and Brooklyn Rapid Transit were nominally heavy. Among the specialties there was a gain of 1 per cent in Wisconsin preferred. Linseed preferred was down 1/2 and Nickel Plate up 1/2. The market was moderately active.

Prices, after the opening, generally reached higher levels, the advances being made almost wholly on buying attributed to John W. Gates and his associates. Their brokers bought steel common and preferred, Union Pacific and Reading. On the advances room traders were sellers, and were disposed traders were sellers, and were disposed to take an aggressive position on the bear side of the market. These traders were fairly karge buyers of stocks yesterday, and their sales in the first hour were regarded as profit taking.

Developments are important enough, including the ideal weather and progress made by the growing crops and the expected excellent statement of the United States Steel corporation to be made at the close of business today, but the country is unresponsive to these developments and no outside demands on advances follow. Amalgamated Copper was favored by some of the traders, who think it ought to sell much higher since it has been put on a 5 per cent basis, and they forced a fair advance in the early trading. London business was fairly good. Government bonds unchanged; railroad bonds steady.

COMMISSIONERS STAND

Take Official Notice of Trouble on Anacostia Cars-In Interest of Public Safety.

official notice of the trouble on the Ana- will forward the petition to the school follows:

Harries, vice president of the Anacostia & Potomac River Railroad Company, in

23d ultimo, transmitting to you a copy of the police regulations regulating the rate of speed of street railway cars over rate of speed of street railway cars over the Navy Yard bridge, and the maxi-mum number of passengers allowed on mum number of passengers allowed on such cars, I am directed to state that the action of the Commissioners in pass-ing that order was based on the fact ing that order was based on the fact that they considered that, while limiting the number of research that they considered they consi ng the number of passengers might be difficult to do, it is certainly not imporsible, and public safety requires such action.

"Your company by having trailers or the present cars which cross the bridge of the bridge, could reduce the stress to an ordinarily safe limit and accommodent Roosevelt by F-3 of of the bridge, could reduce the stress to an ordinarily safe limit and accommodate all probable passengers. With the state of the commissioners where the period of the cars, should not go over the bridge. The report of the Keep Commission on the investigation of the candal in the correct the bridge. The reason for limiting the speed is that the impact of the contract for seventy-two types is a cause of danger.

While it is quite consilie that cars, while the speed is that the impact of the swiftly moving cars striking the bridge is a cause of danger.

While it is quite consilie that cars will probably be forwarded to President resulting in the new bridge without accident until the new bridge is completed it is also possible that at any time a serious accident resulting in the drowning of a number of persons migrat occur, and a situation which any day might be the case.

In short this is a nite way of saying to General Harries "We stand path." In short this is a nite way of saying to General Harries "We stand path." Commissioner Macfarland today supplemented this letter in an interview in the commission in its recommendations for improvements in large of the machines and the several influences bearing on the rivary safe, and our action was entirely in the interest of public sarety."

NEW YORK, July 25.—Bull control was in evidence at the opening of the local cotton market this morning, and prices started firm at a decline of one point to an advance of 9 points. Supporting orders were numerous, mostly in October, aided by rumors of further heavy rains at Dallas and bullish crop and other news from man—sections of the South. Wire house business, however, was comparatively light, reflecting the indifferent attitude of the public.

"There is no regulation in the Dis- was lost, while some of the plants grew

Best Kind Known.

These date plants are of the Deglet Noor variety, the best date known to tne civilized world. The crop is ilmited, and practically the entire output is taken by European markets. The dates are medium sized, amber colored and translucent when ripe, with a soft was riesh of highest flavor. They do not become sticky when dried,

Need Plenty of Water.

A date garden was established at Tempe, Ariz., four years ago. Some of the Deglet Noor date trees in that garden produced fruit last season, but the fruit did not ripen because of fack of

A date-bearing orchard requires seventeen to twenty-four cubic feet of water a day for each tree, With fifty trees to the acre this would amount to 850 to acre foot of water would last thirty-six to fifty-one days. This would be needed during the summer, with a much small-

In the Algerian Sahara the amount of water considered necessary for a date palm is 19,021 gallons, divided into twen--four irrigations of 792 gallons each. Of these irrigations seventeen are given September, inclusive, 123 days, which is equal to an irrigation about once a week. Enough water must be used at each irrigation to cover the ground one and one-half inches deep, or an acre-

A date orchard is made by planting suckers. The tree does not come true to seed, but the suckers are true to the tree from which they grow. Hence a sucker from a Deglet Noor male tree will produce a Deglet Noor male tree. A seed may produce any kind of date. Every Indication points to success in producing in the Imperial valley the most profitable crop known to California.
